

# City of Brooksville, Florida

Public Works Department – 600 South Brooksville Avenue, Brooksville, Florida, 34601

## PRECAUTIONARY BOIL WATER NOTICE

DATE: Tuesday, September 11, 2018

**TO: All Water Users at Southern Hills Subdivision:**

---

This is to advise that on Tuesday, September 11, 2018, water service will be interrupted for repair on the booster station. Water service interruption will be approximately five (5) hours. Service interruption is planned for 9:00 a.m. to 1:00 p.m.

When water service is interrupted, as a precaution, the City of Brooksville, Department of Public Works, advises that all water used for drinking or cooking be boiled. The U.S. Environmental Protection Agency has determined that a rolling boil of one (1) minute is sufficient to disinfect water. As an alternative, bottled water may be used for drinking and cooking. Water from the City's system after repair is approved for bathing and cleaning purposes only.

This "Precautionary Boil-Water Notice" will remain in effect until satisfactory water samples are obtained confirming that the water is safe for drinking or cooking. You will be notified by a handout when the system is cleared for normal use. We expect this to be in 3-5 days.

If you have questions, please contact the City of Brooksville, Department of Public Works, at 352-540-3860.

Cordially,

Richard W. Radack  
Public Works Director

cc: Mark A. Kutney, City Manager
